Stoichiometric Worksheet #3: Limiting Reagents and ...

www2.ucdsb.on.ca/tiss/stretton/CHEM1/stoicwk3.html

Limiting Reagents and Percentage Yield Worksheet: 1. Consider the reaction $I_2O_5(g) + 5 CO(g) \rightarrow 5 CO_2(g) + I_2(g)$ a) 80.0 grams of iodine(V) oxide ...

Practice Problems: Limiting Reagents (Answer Key)

[www.chemistry.wustl.edu/~coursedev/Online tutorials/Plink...](http://www.chemistry.wustl.edu/~coursedev/Online%20tutorials/Plink...)

Practice Problems: Limiting Reagents (Answer Key) Take the reaction: $NH_3 + O_2 \rightarrow NO + H_2O$. In an experiment, 3.25 g of NH_3 are allowed to react with 3.50 g of O_2 .

Practice Problems: Limiting Reagents

[www.chemistry.wustl.edu/~coursedev/Online tutorials/Plink/limreag...](http://www.chemistry.wustl.edu/~coursedev/Online%20tutorials/Plink/limreag...)

Practice Problems: Limiting Reagents. Take the reaction: $NH_3 + O_2 \rightarrow NO + H_2O$. In an experiment, 3.25 g of NH_3 are allowed to react with 3.50 g of O_2 .
