## Pressure vessel design by analysis versus design by rule

[www.processingmagazine.com/pressure-vessel-design-by-analysis...](http://www.processingmagazine.com/pressure-vessel-design-by-analysis...)

Spherical **pressure vessel design** is typically stronger than a cylindrical shape with the same wall thickness. However, spherical **pressure vessels** are difficult and ...

This is a FEA plot of a **pressure vessel** with two identical elliptical nozzles, but oriented in different directions. ASME says that the two nozzles have different ...

## Difference Between MAWP and Design Pressure

[www.differencebetween.net/science/difference-between-mawp-and...](http://www.differencebetween.net/science/difference-between-mawp-and...)

MAWP is the maximum **pressure** at which the **vessel** or equipment is allowed to function at a specific temperature. The mechanical **design**, which is based on Material of ...
